

Congress on

SAFETY

in Engineering and Industry 2020

Leading Safety into the Future

SAVE THE DATE

JUNE 21-24, 2020

**Philadelphia Marriott Downtown
Philadelphia, Pennsylvania, USA**

Convene with leaders across industries and the breadth of science and engineering disciplines to address shared safety challenges.

Learn best practices used by different industries and organizations for solving similar safety problems.

- Operational, Process, and Project Safety
- Safety Leadership and Culture
- Safety Management
- System Design and Implementation
- Effective Use of Data Metrics

Safety Congress 2020 is made possible with generous support from the United Engineering Foundation.

Sponsoring Societies:

Co-Sponsoring Societies:

SAFETY CONGRESS 2020 PROGRAM COMMITTEE

Chair:

- **Roland Moreau**, ExxonMobil (retired) (AIME)

Members:

- **Brad Bray**, California Steel Industries (AIST)
- **Malcom Dunbar**, Edward C. Levy Company (AIST)
- **Phil Grossweiler**, M&H Energy Services (SPE)
- **Lori Guasta**, Predictive Safety SRP, Inc (SME)
- **Edward Herderick**, The Ohio State University (TMS)
- **John Howarter**, Purdue University (TMS)
- **Demetra Johnson**, Equinox Gold (SME)
- **Shakeel Kadri**, Center for Chemical Process Safety (AIChE)
- **Tom Knode**, Athlon Solutions (SPE)
- **Katerina Lachinova**, Construction Institute (ASCE)
- **Kelly Oskvig**, National Academies of Sciences, Engineering, and Medicine (NAS)
- **Patricia Reddington**, American Society of Mechanical Engineers (ASME)
- **Angelique Vesey**, ASME
- **Jim Worrell**, Construction Safety Committee (ASCE)

"One of the greatest potential contributions for Safety Congress 2020 is to allow different industries and organizations to learn from each other, foster new networks, and address more effective ways to integrate safety considerations at the university level."

— **Roland Moreau**, Chair, Congress on Safety in Engineering & Industry 2020 Program Committee
